

#### **PORT SITUATION**

Congestion in LA/LB keeps increasing, average waiting time reached 18 days. The Ports of Los Angeles and Long Beach implemented from Tuesday November the 16<sup>th</sup> a new queuing process that reduces the number of vessel at anchor in San Pedro Bay. But by including all the ships waiting further afield that are now technically in the queue under the new system, the number of vessels waiting for berth reached 101.

RANGE	PORT	Vessels At anchor	Vs Last Week	Waiting Time	Vs Last Week
PNW	VANCOUVER	1	+1	3	-3
PNW	SEATTLE	7	-6	17	+0
PSW	OAKLAND	7	+6	2	+0
PSW	LA/LB	101	+4	18	+5
USEC	<b>NEW YORK</b>	2	-3	7	+1
USEC	NORFOLK	1	-2	0,5	-1
USEC	CHARLESTON	1	-5	1	+1
USEC	SAVANNAH	7	-6	5	+0
USGC	MIAMI	0	+0	0	+0
USGC	HOUSTON	3	+0	2,5	-1

#### **RAIL AND INLAND SITUATION**

- LA/LB: IPI dwell in LA-LB has improved: on dock dwell on average is limited to 3.5 days. Cargo beyond free time (excessive dwell) is down by 70% since 26/10. Cargo velocity for IPI is now largely superior to local freight. This decrease is driven by the reduction of volumes allowing opportunity to clean the aging. It is also driven by new processes in place to pre-load containers to rail car while waiting for density to build. BN/UP rail car supply is good. CMA CGM has additional resources in place watching the IPI very closely to keep improving the situation.
- New York: Maher, berth delays at 7days deteriorating to 10 days next week due to Maher yard capacity at 90%, increasing import dwell, vessel bunching, reduced labor due to holidays plus all NYC terminal closed on 24 & 25 Dec. for Christmas.
- **Savannah** In GCT, berth congestion improving down to 6 vessels at anchor (no CC) (-8 vessels week-over-week) and dwell at 4-5 days, due to mass omission of Savannah for OA and other alliances.
- Seapriority Reach: EXX Rail Flash via Los Angeles, no delays or major dwell time
- Seapriority Get via Los Angeles: No chassis shortage, chassis are available as per standard Seapriority Get operations

### **RECOVERY MEASURES**

Congestions in Asia and North America mentioned above have a considerable impact on the schedule reliability. Structural omission of Yantian on PNW.

GGB Service removed from Seattle until Q1 2022 review due to high berth congestion

JAX is not calling Oakland until further notice.

BOHAI is not calling Seattle.

Strong omission program on USEC services to maintain frequency (SUEZ and MANB).

Strong omission program on PEX3 to maintain frequency

#### **PORT SITUATION**

**Shanghai WGQ:** WGQ: Moderate congestion with waiting around 1.5-2 days for all WGQ terminals

**Shanghai YS:** Heavy congestion in YS1 with waiting around 3 days. There are currently 8 vessels anchored and waiting for berthing

**Yantian**: Yard utilization improved and maintained in a good level of around 75-80%. Berth congestion improved when compared with November, with minor waiting around 0.5 day occasionally. Overall situation is much improved and stabilized.

**Qingdao**: Moderate congestion in QQCT with waiting around 1-1.5 days and 1 berth blocked between 4 & 24 Dec. for 2 new QCs delivery and replacement.

RANGE	PORT	Vessels At anchor	Vs Last Week	Waiting Time	Vs Last Week
North China	TJN/TAO/DLC	26	-2	1	-1
Central China	Shanghai	22	+1	2	+1
Central China	Ningbo	23	+2	2	+1
South China	Xiamen	0	+0	0	+0
South China	YTN/SHK/NSA	20	+0	0,5	+0

### **EQUIPMENT SITUATION**

Equipment supply in Far East remain tight for all sizes 20/40/40HC/40RF. China demand is picking up as golden week holiday ends and container release timing will be reset to approx. 5 days ETD. .

#### **Asia summary:**

- 20ST inventory tight in SE Asia, China & KR
- 40ST/HC tight from all origins .
